

Grouse network seminar 11.-12. March 2020.

Annual meeting point for small game management and research.

In cooperation with Hønsfuglportalen, we are happy to see all of you at Evenstad 11.-12. March. Everybody will be hosted at our campus. Accommodation and food will be at campus for all participants. For practical information please contact me (Marius). We are looking forward to meet all of you and hope that we are able to establish a network across borders which is useful for the future. To maintain the network between the physical meetings, we will use a digital platform – biobord.eu (there will be a presentation about this). For those of you that want to sign up you can make your profile and get access to the Grouse Network on biobord.eu using this link: <https://forum.biobord.eu/> and send a mail to me so I can connect you to the network group.

If you have any questions please contact me.

Med vennlig hilsen / Best regards

Marius Kjøsberg
